Professional Summary

Full stack developer specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js), with experience building secure, production-style web applications featuring JWT authentication, RESTful APIs, and responsive interfaces. Shipped 3+ deployed, live projects including a secure cloud file-storage platform with JWT-based authentication. Comfortable across the stack from schema design and API development to state management and UI implementation, focused on writing clean, maintainable, and scalable code.

Technical Skills

Languages	JavaScript (ES6+), HTML5, CSS3, Python
Frontend	React.js, React Hooks, Context API, Tailwind CSS, Bootstrap
Backend	Node.js, Express.js, RESTful APIs, JWT Authentication, bcrypt.js
Database	MongoDB, MongoDB Atlas, Mongoose (Schema Design, CRUD Operations)
Tools	Git, GitHub, Postman, VS Code, Vite, npm, Vercel, Render

Projects

UploDrive

[GitHub](#) — [Live Demo](#)

React.js, Node.js, Express.js, MongoDB Atlas, JWT, Context API, Axios

- Architected a full-stack cloud storage platform supporting file uploads up to 10MB with JWT-based authentication and bcrypt password hashing.
- Designed and built multiple RESTful API endpoints (Express.js + MongoDB Atlas) for authentication, upload, download, and file management, using Multer for multipart file handling.
- Implemented protected routes with token-based middleware, preventing unauthorized access to user files.
- Built a fully responsive dashboard UI using React and Tailwind CSS, tested across mobile and desktop breakpoints.

Notes Keeper

[GitHub](#) — [Live Demo](#)

React.js, JavaScript, Tailwind CSS

- Built a full CRUD notes application using React Hooks (useState, useEffect) with instant UI updates and no page reloads on create, edit, or delete.
- Implemented dynamic date handling and a fully responsive layout across different screen sizes.

Portfolio Website

[GitHub](#) — [Live Demo](#)

React.js, JavaScript, Tailwind CSS

- Developed and deployed a responsive portfolio website showcasing projects, technical skills, developer journey, and contact information.
- Integrated GitHub, LinkedIn, Instagram, and a downloadable resume for quick recruiter access.

Internship

Frontend Web Developer Intern – YuvaIntern

Remote, Jul 2025

- Developed 8+ reusable React components, including navigation bars, cards, and forms, used across 5+ pages following a mobile-first responsive design approach.
- Converted static HTML/CSS mockups into functional React components, improving development speed for future features.
- Participated in code reviews and sprint planning with a team of 5, using Git for version control.

Education

Bachelor of Technology – Computer Science & Engineering (AI & ML)

Completed July 2026

Dr. A.P.J. Abdul Kalam Technical University

CGPA: 7.5/10
